

Parallel slide gate valve, PN 10

3600

Application

- For liquid and dry media in sewage treatment plants, the raw material industry, mining, chemical and feeding stuff industries.

Characteristics

- Betriebstemperatur
- max. 40°C

Operating pressure

- DN 50 to DN 200: 10 bar
- DN 250 to DN 400, 6 bar
- All flanges DN 50 to DN 400: Bore PN 10

Material

- Gehäuse
 - Grauguss EN-GJL-250 (GG 25),
 - EWS-Beschichtung nach GSK, RAL-GZ 662, Schichtdicke min. 250 µm
- Platte
 - INOX
- Säulen und Spindel
 - INOX 1.4021
- Kunststoffteile
 - POM
