

Universal tapping lock clamp with flange outlet, PN 16

3680

Application

- For cast, FZM, steel and Eternit pipes, DN 150 – DN 500.
- For tapping under pressure, with integrated plug sheet

Characteristics

- Betriebstemperatur - max. 40°C
- Pressure PN 16

Material

- Gehäuse
 - Späorguss EN-GJS-400 (GGG 40)
 - EWS-Beschichtung nach GSK, RAL-GZ 662, Schichtdicke min. 250 µm

Caution

- Specify pipe NP with order.
